TR516 SERIES

TRT • TRM • TRS

- Designed for the recycling, composting and C&D Industries
- Numerous screens and drum types available
- Small footprint
- Efficient four wheel direct-drive system
- Variable speed control drum and feeder conveyor
- Rapid setup times
- Heavy duty Oversize conveyor
- Radial height adjustable fines conveyor
- Available without Radial and Oversize conveyors allowing use of existing stockpiles and wheel loaders

OPTIONS

- Tracked (TRT) Wheeled (TRM) Static (TRS)
- Tipping grid
- Numerous meshes / punched plates
- Extra drums
- Reversible fan
- Over-band magnet
- Hydraulic blowers / air knives
- Extended hopper / greedy boards
- Heavy duty / chevron belts

APPLICATIONS

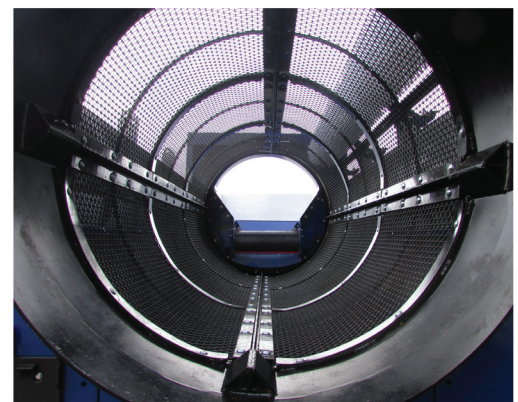

- Aggregate production
- Skip waste separation
- Commercial and industrial waste

FEATURES

- CAT 4.4 90hp electronic engine
- Load sensing hydraulic drive system
- 8 function radio remote control
- 180 degree radial fines conveyor
- Extra wide under drum collection conveyor eliminates material bridging
- Optional heavy duty oversized conveyor with variable discharge height
- Adjustable screening angle
- Heavy duty trommel barrel
- Unique high-throw aggressive screening action

MATERIALS

- Construction and demolition waste (C&D)
- Sand and gravel
- RDF processing
- Compost
- Topsoil
- Wood waste
- Skip waste
- Commercial and industrial waste
- Green waste
